FEATURES

Combining generous storage, a contemporary interior, and a never seen-before layout, the Rio offers something truly unique.

The distinctive layout of the Rio allows you to step straight into the heart of the home - the kitchen, with the kettle just an arm's reach away. With a cup of tea brewing, it's time to drop those bags and head straight to the comfy L-shaped sofa in the lounge where your vacation truly begins. Cleverly designed storage features heavily throughout the Rio, from the underseat storage in the lounge and smart stowing space beneath the dinette bench, to the large cupboard in the hallway and generous built-in wardrobes in the bedrooms. You will never be short of space so bring all you need and more. Although pitched as one of our latest entry-level homes the Rio certainly doesn't lack in style! Its bold interior design scheme features fun and vibrant pops of colour and pattern throughout over a contemporary and grown-up base palette, making this home feel much more expensive than it is. The Rio really does let you leave it all behind - without leaving anything behind!

Our homes are far from basic; but 'The Basics' package offers all you need to enjoy your holiday home including our most popular options already selected to make your purchase as simple as possible.
